

Water. It's Tasmania's thing.

Lower Domain Road closures

Selfs Point Sewer Transformation

Mid June to August 2025

TasWater is delivering the Selfs Point Sewer Transformation, constructing new sewerage infrastructure to support Hobart's future growth and improve the health of the Derwent for future generations.

A key part of this transformation is a 4.3 kilometre sewer pipeline linking the new sewage pump station at Macquarie Point with the upgraded Selfs Point Sewage Treatment Plant at New Town Bay.

Since creation, the Palawa have lived in Lutruwita – Tasmania. More than 2,000 generations of Aboriginal families have cared for this Country, looking after its lands, seas, skies and waterways. In the spirit of respect and gratitude, TasWater acknowledges the Tasmanian Aboriginal community as the traditional and ongoing custodians. We pay our respects to them, their culture and to elders past and present. TasWater commits to working collaboratively and respectfully with the Tasmanian Aboriginal community to protect and sustain the precious resources on this ancient land for future generations.

How will this Lower Domain Road closure affect you?

To support the construction of the new sewer pipeline, the **second of three sections** along Lower Domain Road, between the Tasman Highway and Domain Highway, will be closed from **mid June through to August 2025**.

Access changes – You can still reach key locations like the Royal Tasmanian Botanical Gardens and Government House Tasmania, but detours will be in place, and it may take a little longer than usual.

Parking changes – Local parking spaces along Lower Domain Road may be impacted.

Plan ahead – Expect some delays along Lower Domain Road. To reduce disruption, clear signage and alternative routes will help guide you.

We understand these changes may be inconvenient, and we appreciate your patience as we deliver this critical upgrade.
