Selfs Point Sewer Transformation

May 2026 Construction Update

The Selfs Point Sewer Transformation continues to build momentum, with major infrastructure now clearly taking shape across all key sites.

Construction is progressing well across the project, which remains on track to complete major works later this year.

Progress at Selfs Point

Construction at Selfs Point is now over 60% complete, with major earthworks finished and the large concrete slabs in place for the main treatment buildings.

The sludge handling building is now visible on site. This facility will play an important role in processing biosolids for safe disposal.

Macquarie Point milestone

A key milestone has been reached at Macquarie Point with completion of the concrete roof for the new underground pump station.

The new facility will replace existing infrastructure with a modern system capable of holding more than two million litres of wastewater.

New pump station at Macquarie Point

Tasman Highway staged closures

Late April to late May 2026

Day Works

Monday 27 April – Sunday 31 May 2026*
7:00am – 5:00pm (weekdays and weekends)

Night Works

Stage 1: Saturday 2 May to Sunday 3 May 2026*
Saturday 16 May and Saturday 30 May 2026*

Stage 2: Monday 4 May to Saturday 9 May 2026*
Sunday 17 May 2026 and Sunday 31 May 2026 *

Weeknights: 7:30pm – 6:00am (no Friday nights)
Saturday 7:30pm – Sunday 8:00am
Sunday 7:30pm – Monday 6:00am

*Dates are subject to weather and ground conditions and may be adjusted accordingly.

Pipeline works alongside Tasman Highway

Pipeline Progress

Works along McVilly Drive and the Regatta Grounds car park were completed in late March, with these areas now reopened to the public.

Pipeline installation is continuing on the side of the Tasman Highway, with works underway that will not impact motorists or cycleway users.

What's next

Final pipeline works will take place along the Tasman Highway near the Lower Domain Road junction through to late May.

Temporary traffic changes, including lane closures and reduced speeds, will be in place to ensure works can be completed safely. Wherever possible, works will occur overnight to minimise disruption.

We thank the community for their continued patience. For more details, lane closures and detours, visit taswater.com.au
